

# MiniTest

## The Fitter's Companion

### Dairy Vacuum & Pulsation Meter

Need a meter to leave on the pulsator test bench, or in the glovebox for that quick check, but don't want to spend \$thousands\$ on a full test kit?

Now there's an accurate cost-effective instrument that fits the bill perfectly.

- Measures Pulsation (A+B, B, C, D, Rate) and Vacuum (Min, Avg & Max)
- Accurate ( $\pm 0.3\text{kPa}$  typical) with internal protective dust filter.
- Large easy-to-read digital display.
- Complete with carry case, spare batteries, manual & silicone tubing.
- Uses two Alkaline 'AA' batteries (accepts NiCd and NiMH rechargeables).
- 1 year warranty
